

# Universal Caravan & RV Water Tank

## 50 Litre Water or Grey Water Tank

BR Plastics new blow moulded universal caravan and RV water tank will change the way you use water tanks. This one 50L tank can be configured in many ways to provide a single low cost solution to your grey water or water storage requirements.

Single Tank Dimensions  
 50 Litre Tank  
 Part No 200003  
 Weight 2.5Kg

Install the tanks in one of the configurations shown to provide the optimal installation for your application.

Note: Use Teflon sealant tape on fittings and ensure fittings are not cross threaded. Tanks should be fully supported with no load on fittings. Tank may swell when full.

The BR Plastics tank is blow moulded from food contact approved High Molecular Weight High Density Polyethylene. This makes the tank a super tough performer.

The tank is moulded with two integral 40mm (1.5" BSP) threaded female closures that can accept a wide variety of standard fixtures and fittings.

Using these standard fittings the tank can be networked together to provide many water storage options for your vehicle.

When installation configuration has been chosen, drill a 3-4mm hole in the top of each tank to allow for air venting.
