# POLYSAFE

WHY CHOOSE POLYSAFE?

## SUPERIOR BY DESIGN

Our drinkware is constructed from the highest grade polycarbonates. Our designs include heavy bases, and glass like modeling to create the most glasslike drinkware in the world.

## ADVANCED PRODUCTION

We have advanced production techniques that strengthen the internal structure, so we can **guarantee** against cracking or injection bubbles. Polysafe is one of the only companies in the world to do this.

## REVIVE

Normal polycarbs are mistreated and thrown away once they look grubby. With new innovative Revive you can get up to 4 times more life than other polycarbonates. Revive is so strong it is for exclusive use on Polysafe products.

Conical Schooner 425 mL  
425ml / 14.4oz Capacity  
Weights & Measure Verified  
Thick Heavy Base  
Comfortable Drinking Lip

## MAINTAINING YOUR DRINKWARE HOW TO CLEAN

### THE GOOD

Hand wash & machine wash using Polyclean by Polysafe. For heavy soiled glasses, use Revive the polycarbonate soak exclusive for Polysafe products. When hand washing, only use a soft sponge and avoid repetitive movements like twisting whilst cleaning.

### THE BAD

At all cost, avoid scourers or cleaning clothes that are abrasive. These will make your polycarbonate glasses appear scratched and cloudy. Do not use these on polycarbonate drinkware!!

### THE UGLY

Glass scrubbers are also damaging to polycarbonate surfaces. However it is recommended that if you need to use these cleaning devices, that you fold a kitchen clothe over and place it over the brushes to create a protective barrier.
